## Pay Property Tax, Buy Auto Decals by Mail

### Pay Property Taxes, and Buy Auto Decals by Mail, Credit Card, or over the Internet.

Fairfax County residents are urged to pay personal property taxes and vehicle decal fees early by mail. The county began mailing personal property tax bills in July. Residents who have paid all personal property taxes for all previous years and all outstanding parking tickets can receive new decals by mail.

In this fourth year of the state-authorized tax reduction, taxpayers' personal property tax will be reduced by the amount determined by the state - 70 percent in 2001 - which will be reflected in the bill they receive from Fairfax County. Vehicles qualifying for the state-authorized tax reduction are passenger cars, pickup or panel trucks and motorcycles used for non-business purposes.

Taxpayers can save time by mailing in their payments. Last year, more than 50,000 people waited until the last minute to buy decals and pay county personal property taxes in person. If you do need to pay in person, you may go to the Fairfax County Government Center, located at 12000 Government Center Parkway, Suite 223, in Fairfax.

Taxes may be paid by check, cash or a credit card. For credit card payments: the Department of Tax Administration (DTA) is using a "third party" processor for MasterCard, VISA, American Express and Discover payments. The processing company charges a convenience fee for processing credit card payments ranging from 2.2 percent to 4 percent (the maximum allowed by state law). Call 1-800-272-9829 to pay by telephone or access [www.co.fairfax.va.us/dta](http://www.co.fairfax.va.us/dta) to pay over the Internet 24 hours a day,

seven days a week. Residents can also pay over the Internet by electronic check.

For Discover Card users only: taxpayers can pay using Discover in person at the Fairfax County Government Center or by calling DTA directly at 703-222-8234. They will be charged a flat fee for this service.

Residents also can pay using American Express, Discover or VISA at the county's electronic kiosks located at selected libraries, shopping malls, the Fairfax County Government Center and the Mason Governmental Center.

Taxpayers may also pay their taxes at branches of certain local banks as long as they pay by cash or check only and the payment matches the amount billed exactly. Bring your bill and payment to a branch of one of the following banks: Wachovia, SunTrust, First Union, First Virginia and Bank of America. Banks will not accept late payments.

The deadline for paying personal property taxes and purchasing vehicle decals is midnight on Oct. 5. There is a 10 percent penalty for tax payments made after Oct. 5 plus 5 percent interest for late tax payments. If you moved into the county or purchased a vehicle after July 1, your taxes will not be due until Feb. 15, 2002. However, you still must purchase a decal within 60 days of moving in or of purchasing a vehicle.

The law requires that all vehicles normally situated in the county must have a current county decal. To report vehicles that are normally located in Fairfax County but do not display a current county decal, call the TARGET Hotline at 703-324-3767. You may leave the report anonymously if you wish. ■

## Customer Service Improved With E-Commerce Initiatives

### E-Commerce Initiatives Improve Customer Service to Fairfax County Taxpayers

The Department of Tax Administration (DTA) has announced three e-commerce initiatives to further improve customer service.

1. The county will accept payment by credit card via DTA's Web site, [www.co.fairfax.va.us/dta](http://www.co.fairfax.va.us/dta).

2. Citizens have interactive capability through DTA's Web site. Citizens may make address changes, record the move or sale of vehicles,

and estimate the proration of certain vehicle taxes on-line.

3. Citizens may use a secure communication page on DTA's Web site to pay by electronic check. Payment by electronic check is a single payment program in which DTA will accept tax payment by electronically debiting the taxpayer's bank account.

These three e-commerce options have proven to be positive customer service enhancements. For more information on e-commerce options, call the Department of Tax Administration at 703-222-8234. ■

## Free Bus Fares Offered in I-95 Corridor

### Now bus fares in the I-95 corridor are free!

The free bus routes include:

- Metrobus 18 R/S
- TAGS S80, S81, S82
- FAIRFAX CONNECTOR 109, 110, 111, 202, 203, 204, 301, 303, 304, 305, and 311

The free bus routes are part of the Bus Fare Buydown program, which is focusing on the I-95 corridor to encourage motorists driving through the Springfield Mixing Bowl to try transit instead. The Bus Fare Buydown program is a promotion funded by the Commonwealth of Virginia to increase Metrorail ridership by lowering the fares on bus routes that serve Metrorail stations. The program offered free rides in the I-66 corridor through June 2001.

The free fares are expected to remain in effect through June 2002.

In addition to the free fares, a spe-

cial weekly bus/rail pass is being offered at a significant discount. Normally \$30, the pass has been reduced to \$20 when you present a transfer from FAIRFAX CONNECTOR or Metrobus. This discount pass goes on sale every Wednesday from 6-9:30 a.m. in the Franconia-Springfield Metrorail Station.

For more information, bus route maps or schedules, call the FAIRFAX CONNECTOR Information Center at 703-339-7200, TTY 703-339-1608, visit the Web site at [www.fairfaxconnector.com](http://www.fairfaxconnector.com) or visit the Connector Store in Springfield Mall. ■

## "2000 Demographic Reports" Data Available on Internet

### The Fairfax County Department of Systems Management for Human Services recently released the "Fairfax County 2000 Demographic Reports" data on the county's Web site.

The information contained in these tables are economic and demographic data. These data tables are available on the Internet in PDF and Excel format. They are also available on computer diskettes in Excel format.

The "2000 Demographic Reports" data contains statistical information on the county's current and forecasted population and housing units, residential units in the development process, nonresidential structure gross floor area, and current and planned land use. The data is presented by supervisor district, planning district, subcensus tract and the county as a whole.

Tables on the county's land characteristics, housing inventory, residential development activity and

population reflect data as of January 2000. Income data pertain to calendar year 1997.

Information from the "2000 Demographic Reports" data can be accessed electronically on the county's Web site at [www.co.fairfax.va.us/aboutfairfax/default.htm](http://www.co.fairfax.va.us/aboutfairfax/default.htm). For those wishing to obtain the "2000 Demographic Reports" in computer-readable format, computer diskettes are available for purchase from the Maps and Publications Sales desk in the Fairfax County Government Center, 12000 Government Center Parkway, Suite 156 in Fairfax, and cost \$10 per diskette. For purchasing information, call 703-324-2974. Hard copies of the "2000 Demographic Reports" will be available at a later date. ■

## Innovative Technologies Introduced at Government Center Ponds

### FAIRFAX AGENCIES COLLABORATE TO BRING INNOVATIVE BEST MANAGEMENT PRACTICE (BMP) TECHNOLOGIES TO THE GOVERNMENT CENTER PONDS.

At first glance, the broken earth and freshly poured concrete at the stormwater management ponds outside the Government Center do not appear especially environmentally friendly. But, the modifications the workers are implementing will improve the quality of the water leaving the Government Center property, thereby minimizing the adverse affects of the property on the downstream environment. Considering that all surface water in Fairfax County ultimately flows into the Chesapeake Bay, removal of pollutants from stormwater run-off can have a significant positive environmental impact.

Dave Brown, an engineer with the Maintenance and Stormwater Management Division (MSMD) of the Department of Public Works and Environmental Services (DPWES), describes the changes as simply improvements on the original design. Upon completion of the improvements, these dry ponds will, as before, fill up during a rain storm and then return (or draw down) to a semi-dry state approximately 48-hours following the storm. While this drawdown time is consistent with the design concept proposed in the original plans, the means for facilitating the drawdown are being implemented in such a way as to mitigate possible blockage problems. The original drawdown facilities are being eliminated and replaced with a modified riser (the device that controls the outflow of water), a drawdown plate to regulate how much water leaves

the pond, and a large trash rack to reduce the clog potential of the orifice in the drawdown plate.

Improvements at each pond also include the removal of the original concrete low-flow ditches and the installation of a sediment basin, a diversion berm to extend the flow path between the inlet and the outlet, a deep pool in front of the riser and several shallow marsh areas. The marshy areas will be planted with various wetland and wet meadow plantings native to the area.

These plantings should flourish with the extended length of time that moisture is retained in the marshy areas. Studies have demonstrated that such vegetation increases the treatment capacity of a pond by filtering sediments and absorbing nutrients from the stormwater. In addition to improving the water quality, the new plant life will impart improved ecological and esthetic qualities.

This project, from design to construction, is the result of a growing partnership between various county and state agencies as well as interested citizens and environmental groups. The pond floor design concept is the result of a collaborative effort between MSMD, the Stormwater Planning Division, the Virginia Department of Forestry and the Northern Virginia Soil and Water Conservation District. Following the construction of the improvements, the plantings will be installed in the latter part of September. Informative display signs at the site will detail the functional wetland design.

For more information on these projects, please contact MSMD at 703-934-2860. ■
